

ICT PAPER 2

Item 2

The use of computers, mobile phones, and the internet has increased significantly in your community. However, many people are not aware of the risks involved in using ICT devices. The Community ICT Development Office has launched an ICT Safety Awareness Campaign to educate residents on safe and responsible ICT use. Your classmate, who is the ICT Club Chairperson, has been tasked with preparing an awareness document to be distributed at schools, community centers, and public offices. However, he lacks design skills and has requested your help in producing a clear and engaging publication.

Task:

Design and produce a well-structured ICT Safety Awareness offline document.
